Filing Date .........................................................................................07/18/2001
Inventorship .................................................................Michael B. Jones et al.
Attorney's Docket No. ................................................................MS1-204USC1
Title:  Method and System for Resource Management with Independent Real-Time
Applications on a Common Set of Machines

## INFORMATION DISCLOSURE STATEMENT

The citations listed are submitted in compliance with the duty of disclosure

defined in 37 CFR §1.56.  Copies of the cited references were cited or submitted

with the priority application and are therefore not submitted herewith.

The Examiner is requested to make these citations of official record in this
